I'm a junior developer with a focus on web and mobile app design, as well as backend development. Currently, I'm deepening my skills in mobile app development, studying core fundamentals, and exploring new app technologies.

Work Experience

Flutter Developer
Sreenarayanaguru Open University (SGOU) | Kollam, Kerala, India

Dec 2023 - Present

Cross-platform mobile app development using Flutter and Dart. Built responsive and high-performance UIs, integrated backend APIs, optimized state management, and ensured smooth app deployment on both iOS and Android.

- Developed and deployed cross-platform mobile apps using Flutter and Dart, optimizing for iOS and Android.
- Integrated Firebase for real-time data synchronization, authentication, and backend services.
- Utilized OneSignal for push notifications, enhancing user engagement with targeted messaging.
- Implemented live chat functionality to support real-time communication within apps.
- Managed project code and collaboration using GitHub, ensuring version control and streamlined development.
- Designed responsive, dynamic UIs with Flutter's widget-based system, focusing on performance and user experience.

Full-Stack-WebDeveloper
CYBERIA SOFTWARES PRIVATE LIMITED | Kollam, Kerala, India

Mar 2023 - Sep 2023

Web Development | Backend Systems | Cloud Services

- Developed and maintained dynamic web applications using Python (Django), building scalable and secure backend architectures.
- Designed responsive user interfaces with HTML, CSS, and JavaScript,bootstrap, enhancing user experiences and functionality.
- Implemented RESTful APIs to support frontend integrations and external services.
- Managed and optimized MySQL databases, ensuring data integrity and efficient query performance.
- Leveraged GitHub for version control, project collaboration, and continuous integration to streamline development processes.
